DWG 1. Yale Road - Airport Road Intersection: TCP PHASE 1

Traffic Control Person on site to assist pedestrians through work zone.

Straight-ahead pavement marking arrow covered. Taper allows room for left-turning trucks to swing wide into closed lane.

Work Zone (green): Pedestrian crosswalks and sidewalk access will be maintained and delineated from work zone.

Barrels are shown on drawing to differentiate tapers from other delineation. Tubular markers may be used in all cases at existing posted speed limit, as per manual.
