Road Permit Conditions for 45530 Vedder Road

- No change to the grade of the area, trailer must be leveled on blocks
- The City's gravel lane will need to remain clear of material, vehicles and equipment
- The contractor would need to maintain the walkway to keep it clear of mud gravel, gravel and concrete, and facilitate the City's free and clear use of the area and the City's mowing contractor goes through on Tuesdays
- The trailer should be behind construction fence
- No fuels, or noxious substances should be stored within the area
- Contractor would be required to maintain the grass on the bank surrounding the trailer from the end of the access walkway down to the where the walkway turns to go under the bridge. They would need to maintain the grass on our regular schedule of grass cutting and restore any disturbed areas to pre-existing condition at the end of the use of the area.
- Contractor not to use the gravel pathway area for passage of equipment and vehicles and cannot cross the pathway with electrical cords, water lines etc.
- Contractor shall not have equipment or vehicular traffic crossing the gravel area
- If for whatever reason the trailer and surrounding area becomes unmaintained, creates a hazard or becomes a nuisance, the contractor will be obligated to remove the structure within one weeks written noticed provided to the Contractor by the City.

The contractor shall make every effort to remove and relocate the trailer to private property at the earliest opportunity.
