

Are you tired of watching cars speed through your neighbourhood? Why not take an active role in your community and ask motorists to slow down. The Hey Neighbour, Please Slow Down! Campaign is a toolkit for residents to inform motorists that driving fast is not acceptable on their local neighbourhood street. This educational tool is designed to encourage motorists to reduce speeds when travelling on your local neighbourhood street.

Although these signs are not enforceable, this message from a neighbourhood to motorists is considered advantageous. The posting of signs are an awareness and educational tool for all motorists as well as residents.

How the program works

The Neighbourhood Traffic Safety Campaign is a neighbourhood program to be established by the residents. Residents on a block must agree to post lawn signs calling for motorists to slow down. By doing so, residents must also agree to slow down. In order to achieve a strong neighbourhood impact, it is recommended that the signs be placed on every second property within a block for a period of one or two weeks. The copious number of signs and the short period in which the signs are installed would maximize the effect.

What is involved?

To participate in this campaign residents are required to appoint a captain who will act on behalf of the neighbourhood. The captain will attain the required neighbourhood support for the campaign by way of petition (pledge form).

Upon completion of the petition the captain will provide the forms to the Public Safety Specialists, Samantha Piper. Safer City will then evaluate the request and the captain will be contacted and advised of sign availability. The neighbourhood captain must agree to liaise with Safer City in distributing and administration of lawn signs.

Please Note: these signs are not meant to encourage children to play in the middle of the street.
