

Application

Waiver of Tipping Fees for Flood Impacted Properties

With the recognition that our community is grappling with extensive and ongoing damage from the flooding, the Province announced a process for the reimbursement of tipping fees that allows disposal facilities to issue a waiver of tipping fees for waste material confirmed to be directly attributed to flood damage. The City of Chilliwack is inviting flood impacted property owners/ tenants to apply for a waiver of tipping fees for loads of this waste material brought to the Bailey Landfill (5940 Matheson Road).

SECTION A: ELIGIBILITY REQUIREMENTS

1. The address of the flood impacted property is within a known impact zone identified by the affected municipality.
2. The waste material is confirmed to be directly attributed to flood damage.
3. The waste material is received within a 90-day period from the last date of flooding identified by the affected municipality. Residents will be advised of any provincial extensions to this timeline.
4. Waste material brought to the Bailey Landfill should be separated as follows:
 - Clean wood – branches, sticks, trees, clean dimensional lumber
 - Metal – major appliances (fridges & freezers separate – please empty contents), furniture, and other metal for recycling
 - Gypsum/drywall – drywall can be recycled as long as it doesn't contain asbestos (see next item)
 - Asbestos containing materials – pre-1990 drywall, insulation and other building materials may contain asbestos and require special handling and disposal, see chilliwack.com/landfill for details
 - Propane tanks
 - Clean soil, rocks, sod and small concrete (no rebar)
 - Other garbage – includes carpets, underlay, rugs, books, furniture, clothes and non-asbestos insulation
5. Product Stewardship Materials, such as paint, tires, electronics, small appliances and power tools, household hazardous waste etc. must be separated from the waste material and dropped off for recycling at eligible recycling/bottle depot locations. Where possible, household recyclables such as plastic, metal and glass containers, paper and cardboard etc. should also be separated for recycling through a recycling/bottle depot. Refer to attached City of Chilliwack Quick Guide for Disposal of Flood Debris (residents outside Chilliwack will need to confirm local recycling locations within their jurisdiction).
6. Please review other information for the Bailey Landfill at chilliwack.com/landfill.
7. An application must be submitted and approved prior to bringing material to the landfill for free disposal.

SECTION B: FLOOD IMPACT INFORMATION

Date(s) of Flood Event(s)

Flood Impacted Property Address – unit, street, city, province, postal code
(Note: Address must be within a known impact zone)

Name of Applicant / Contact Person

Relationship to Property (check one) Owner Tenant

Mailing Address (if different than flood impacted property) – unit, street, city, province, postal code

Contact Person Email

Contact Person Phone Number

Will you be using a hauler or third party to transport your waste material (check one): YES NO

Anticipated Disposal Date(s) (Note: disposal cannot occur until authorization number is issued)

Hauler/Licence Plate # of Vehicle(s) (Note: If available)

Estimated number of vehicles/loads of waste material

Please attach photos (maximum 5) of the waste material attributed to flood damage. If emailing, maximum file size is 1MB each.

DECLARATION OF FLOOD DAMAGE

I certify that all waste material delivered to the Bailey Landfill will be directly attributed to flood damage, and is from the property identified in this waiver.

DATED at _____ this ____ day of _____ 20____
(City) (Month)

Name of Authorized Signatory (please print)

Authorized Signatory (signature)
(Or print and sign if digital signature unavailable)

SECTION C: PROCESSING & APPROVAL

QUICK GUIDE

DISPOSING OF MATERIALS AFTER A FLOOD

The task of cleaning up your home after a flood can be daunting. Here are some pointers which can help with the process.

Please sort your materials prior to bringing them for disposal/recycling. Flood water can be contaminated; please spray off or wipe down recyclable materials before drop off.

Sorted Materials Accepted at Bailey Landfill	Recyclable Materials <u>not</u> Accepted at Bailey Landfill
Clean wood – branches, sticks, trees, clean dimensional lumber	Tires – Bring to local tire shops for recycling (visit tsbc.ca for locations near you)
Painted and Treated Wood	Recyclables – visit chilliwack.com/depots for where to take plastic packaging/containers, metal containers, glass bottles/jars, foam, paper and cardboard. Flood damaged paper and cardboard cannot be recycled and should be disposed of as garbage.
Fridges / Freezers – please clean out the contents.	
Metal – major appliances (fridges and freezers separate), furniture, toys and other metal	Hazardous Materials: <ul style="list-style-type: none"> - Electronics - Small Appliances and Power Tools - Lights/Lightbulbs - Batteries - Paint Cans - Household Hazardous Waste (pesticides and flammable materials)
Drywall – drywall can be recycled as long as it doesn't contain asbestos (see note below)	
Building Materials Containing Asbestos – drywall and other building materials from homes older than 1990 may contain asbestos and require special handling and disposal. Detailed information is available at chilliwack.com/landfill	
Propane tanks	
Clean soil, rocks, sod and small concrete (no rebar)	
Other waste such as carpets, underlay, rugs, books, mattresses, furniture, clothes, plastic items and insulation (some insulation may contain asbestos and require special disposal)
