Bylaw No. 2689

A bylaw to impose Development Cost Charges

WHEREAS, pursuant to Section 933(2) of the *Local Government Act*, Council may impose development cost charges under the terms and conditions of Sections 933 and 934;

AND WHEREAS the development cost charges may be imposed for the purpose of providing funds to assist the City to pay the capital cost of providing, constructing, altering or expanding sewage, water, drainage and highways and for providing and improving parkland, in order to serve, directly or indirectly, the developments for which the charges are imposed;

AND WHEREAS a development cost charge is not payable if:

1. The development does not impose new capital cost burdens on the City; or,
2. A development cost charge has been previously paid for the same development unless, as a result of further development, new capital cost burdens will be imposed on the City.

AND WHEREAS in fixing development cost charges imposed by this bylaw, Council has taken into consideration future land use patterns and development, the phasing of the works and services, the provision and improvement of parkland and whether the charges:

1. are excessive in relation to the capital cost of prevailing standards of service in the City;
2. will deter development;
3. will discourage the construction of reasonably priced housing or the provision of reasonably priced serviced land in the City; or
4. will discourage the development or redevelopment of commercial or industrial properties which would otherwise provide employment and economic diversity and stability in the community;

AND WHEREAS the charges imposed by this bylaw are related to capital costs attributed to projects included in the City's financial plan;
