Development Applications Summary	11
Comparisons - Planning, Business Licences, Development Permits	
Summary by Neighbourhood - Planning, Business Licences, Development Permits	

#### **Building Permits**

•	Fourth Quarter	.14
•	Neighbourhood	.15
•	Building Permits	.16
•	Single Family 5 Year Comparison	. 17
•	Townhouse 5 Year Comparison	. 17
•	Multi-Family 5 Year Comparison	. 18
•	Commercial 5 Year Comparison	. 18
•	Industrial 5 Year Comparison	. 19
•	Institutional 5 Year Comparison	. 19
•	Agricultural 5 Year Comparison	. 19

#### Land Development

•	Development Permits 5 Year Comparison	. 20
•	Subdivision 5 Year Comparison	. 20

#### **Regulatory Bylaw Enforcement**

•	2018 Bike Patrol	21
•	General Bylaw Enforcement 5 Year Comparison	23
•	Health & Safety 5 Year Comparison	23

#### **Economy and Housing Starts**

In 2018, new stricter mortgage qualification rules, higher interest rates, and the foreign-buyer tax led to

declining sales and housing starts and an overall slowdown in the housing market across British Columbia, registering an average 30% decline in sales. In Chilliwack, the number of residential housing starts totaled 812 at the end of 2018, a 12% decrease from this time last year. Multi-family development was predominant, accounting for 54% of total housing starts, compared to 37% last year. This is typical of an active housing cycle, where more affordable housing is sought in a higher priced environment. Within that category a greater shift was seen towards apartment starts, which totaled 317 units compared to 121 townhouse starts.

Chilliwack and District MLS sales continued to decline through the end of November, with 177 units sold that month, compared to 284 in 2017. This is consistent with sales declines experienced elsewhere in BC. Average housing price across all housing types in December 2018 was \$487,000 – with median prices for apartment (\$260,000); townhouse (\$438,000) and single family detached (\$605,000). As an effort to address affordability, the City introduced a new secondary suites policy in 2018 and streamlined the process for developing coach houses in the R1-A Zone. In 2018, the City saw an increase of 42 accessory dwellings, twice the number created in 2017. In the rental market, apartment vacancy rates remain tight across the Province and in Chilliwack, where zero vacancy rates have prevailed for the last two years in the bachelor and three bedroom apartment categories, and rents have increased 23 and 30% respectively. Vacancy rates for one and two bedroom apartments as of October 2018 were also low, at 1.6% and 2.1% respectively.

Looking forward to 2019-2020, economists are predicting that economic growth will shift away from sectors that have for many years benefited from cheap and readily accessible credit (i.e. consumption, new residential construction, renovations and real estate transfer costs) towards export growth, business investment, and non-residential development. The 2018 approval of LNG Canada's \$40 billion liquefied natural gas export project in Kitimat; investment in the Site C dam project; and anticipated increases in spending on machinery and equipment are expected to support a growth rate of 2.5% to 2.9% in 2019 for BC, near the top of the provincial growth rankings.

A lower pace of housing starts and residential investment is forecast in 2019, although some pent up housing demand may support a modest recovery in home sales and prices. Increased multi-family starts are expected to continue, with a number of proposals already in the permit queue.

### **Zoning Bylaw Review**

A comprehensive review and revision of the City's Zoning Bylaw is underway to ensure the document is:

- incorporating best practices in urban planning & development
- consistent with provincial legislation
- legally enforceable
- improved, updated and simplified with a user-friendly and organized layout
- easily interpreted and implemented by staff, Council, the development community and public

The new Zoning Bylaw will support the 2040 OCP's goals, objectives and policies. There will be opportunity for community engagement with key stakeholders and the public as well as the Affordable Housing & Development Advisory Committee, Design Review Advisory Committee, Downtown BIA, CEPCO and the local development community. Urban Systems Ltd. has been awarded the contract and the project is anticipated to complete in early summer 2019 following consultation with the public.

### **Intermunicipal Business Licenses**

The Intermunicipal Business License (IML) program has proven a very successful business licensing system. Over the years, the program has been enhanced to enable growth in the region while maintaining a revenue neutral objective for all participating municipalities. This Fraser Valley partnership allows non-resident (mobile) trade contractor businesses from within the 11 participating municipalities to operate in each community on the basis of one IML purchased from their home base as opposed to requiring separate licenses from each municipality in which they operate. IML sales in Chilliwack have steadily increased over the past six years since implementation and this trend is expected to continue:

> 2018 = 459 IMLs Sold 2017 = 374 IMLs Sold 2016 = 315 IMLs Sold 2015 = 248 IMLs Sold 2014 = 197 IMLs Sold 2013 = 135 IMLs Sold

#### **Development Review**

While there may be an overall slowdown in the housing market, the volume of land use applications continued to rise in Development Planning. A total of 514 development applications were processed in 2018, representing a 5% increase over 2017 applications; 2017 applications already represented more than a 50% increase over 2016 applications. Chilliwack continues to be a desirable place to live as an area providing affordable housing and more generous living space. The 2040 Official Community Plan (OCP) centres on managing growth responsibly, strengthening agriculture, growing the economy, protecting the environment and building healthy communities. Development in Chilliwack reflects these goals, objectives and policies.

Rezoning (RZ): changes the land use; facilitates development of a property in accordance with the OCP Development Variance Permit (DVP): varies a bylaw standard (i.e.: parking, setbacks, building height) Development Permit (DP): ensures form and character (site and building design) of commercial, industrial or multi-family residential development meet design guideline objectives

Temporary Use Permit (TUP): allows an alternate use without changing zoning

**Agricultural Land Reserve (ALR):** permits non-farm use, subdivision, exclusion or inclusion of property located within the Agricultural Land Reserve and subject to Agricultural Land Commission approval

#### **Development Permits**

New commercial, industrial and multi-family/intensive residential developments are subject to "form and character" considerations to ensure the Design Guidelines within the 2040 OCP are achieved. These guidelines generally encourage a high standard of site and building design, maintaining a consistent streetscape, promoting the pedestrian scale and enhancing the urban design of the surrounding community. Development Permits are also required for Hillside Areas and siting requirements of Farm Home Plates for valley floor farmland. While most development permits are subject to consideration by Council for approval, with review and recommendations from the Design Review Advisory Committee, there are opportunities for a streamlined and expedited review for Farm Home Plate applications consistent with the established guidelines and new

development projects with a construction value less than \$100,000. Council's delegated authority for Director of Planning & Engineering approval for qualifying development permit applications saw one third of all 2018 applications streamlined and processed quickly.

#### **Homelessness Action Plan Update**

Housing continues to be a priority of Council and community stakeholders. In the beginning of 2018 the Province released four funding streams for different types of housing, which included supportive housing, affordable rental housing, Indigenous housing, and housing for women and children fleeing violence. Between various Chilliwack stakeholders, all streams were applied for. At the end of December 2018, two local stakeholders received approval to proceed to the proposal stage and more approvals are expected in the beginning of 2019.

The Yale Road supportive housing development site began site preparation for the addition of 46 modular housing units and the Intensive Case Management (ICM) team office building. Occupancy is scheduled for the beginning of April, which will include 24/7 support staff

in the development and an additional clinical ICM team to support residents of this development, the Trethewey Avenue development, and a number of people who live elsewhere in the community. Currently the ICM team has hired most of its staff and are engaging people accessing the various shelter services on a daily basis.

Starting in early December, the Province increased funding to support an additional 69 seasonal shelter beds. This brings the total number of emergency shelter beds up to 177 as noted below. The increase in beds has been well utilized for those without housing and has provided additional opportunities for local service providers to give shelter clients to access health, substance use, mental health, and housing services. The additional seasonal beds will remain open until March 31, which will coincide with the opening of the Yale Road supportive housing development, operated by RainCity Housing.

Shelter capacity for regular and additional seasonal beds are as follows:

Provider	Year Round Beds	Additional Seasonal Beds (until March 31)
	Adult Beds	
Ann Davis Transition Society	9	13
RAN Mission – The Portal		45
RAN Mission	26	
Salvation Army Modular	48	
Salvation Army – Female Only shelter	16	
	Youth Beds	
Cyrus Centre	9	11
Total Shelter Beds	108	69

#### Homelessness Action Plan Update

This quarter, as shelter services increased, the City worked with local providers to implement a tracking database to capture statistics of bed use and vacancies on a nightly basis. The tracking database helped shelter providers and relevant stakeholders access information regarding the availability of beds to help direct potential clients to access shelter beds and additional services as needed.

On December 8, Chilliwack launched a Situation Table, modelled after similar tables in the province (Surrey SMART, Mission MAST, and Penticton CAST). The Situation Table start-up was a partnership between the City of Chilliwack, Upper Fraser Valley Detachment – Chilliwack RCMP, and the Provincial Office of Crime Reduction and Gang Outreach and was made possible thanks to funds procured through a grant application to the Province. Chilliwack's Table, CIRT – Chilliwack Interagency Response Table, meets weekly with 15+ service providers to jointly assess clients at imminent risk of crisis, and plan rapid interventions when circumstances for the person(s) are unmanageable, and beyond their control, in order to avoid further harm in their lives. Situations and interventions that come to the Table are recorded through a de-identified tracking database and information collected will be utilized to assess and address gaps or barriers to individuals and families accessing appropriate services in Chilliwack.

### Seniors' Housing Study

A diverse and adequate supply of safe, affordable, appropriate seniors' housing is important for building healthy communities. In Chilliwack, the senior population (65+) is expected to grow from about 16,000 to 29,000 by 2041, and is the fastest growing age group. In order to ensure that seniors' housing needs are met as the community grows, the City is embarking on a Seniors' Housing Study.

The project will review housing needs across the continuum of independent housing (rental and home ownership), assisted living (limited care facility – cooking and cleaning services provided), and residential care facilities (for those who have complex care needs) and project future housing needs for the community.

The project will be comprised of:

- Demographic profile analysis: looking at housing market conditions, housing affordability, and accessibility
- Housing needs and demands: analysis of senior households and growth projections across household types and review of age specific population trends; a housing asset and gap analysis
- **Best practices review**: review of local and regional housing policies, bylaws, tools, incentives and programs used to support affordable and appropriate seniors' housing and a review of their applicability in the Chilliwack context
- **Final study with recommendations**: based on findings, recommendations will be provided to guide future strategies
- Comprehensive community engagement: in order to obtain the views of stakeholders and the public to better understand, inform and verify housing needs and demands, the City will provide a variety of community engagement opportunities, including a community meeting, focus groups with seniors and service providers, in-depth interviews, and a community survey which will be made available via the City website, and on paper

The project is expected to run from January to September 2019.

#### **Chilliwack Healthier Community**

<u>October:</u> CHC added three new partners through October: Elizabeth Fry Society, RainCity Housing Society and the Chilliwack Métis Association, bringing the current partnership to 43. The First Nations Historical Impacts Training Series (FNHITS) that CHC has coordinated since 2015 ran three cohorts this fall; in total 175 people have attended this training over the last three years. The series will now be administered by Stó:lō Service Agency, the creators of the series. The October 23 Information and Networking Breakfast focused on Primary Care Networks – the re-visioning of health care in the Fraser Valley. This was a well-attended event which included world-café style discussion to provide input on the system improvements that Fraser Health is implementing.

<u>November</u>: On the evening of November 14, CHC's Addictions Task Team and its Overdose Community Action Team hosted a New Matrix Meal (NMM) event at the Chilliwack Museum and Archives. With 50 people in attendance it was the largest NMM in Chilliwack to date. This event centered on facilitated conversation over an excellent meal between citizens and people living with substance use issues. On November 27 CHC hosted its housing-themed Information and Networking Breakfast, titled: Updates and Outcomes of Collaboration and the Homelessness Action Plan. The event demonstrated the extent of the collaborative and action-focus work that defines Chilliwack. With 12 speakers all describing new, ongoing, and planned affordable and supportive housing initiatives in the community, attendees learned that there is a great deal that Chilliwack is doing to address housing and homelessness.

<u>December</u>: December marked the culmination of months of work to create a Financial Literacy Tutor Program created in partnership with CHC and the Chilliwack Learning Society (CLS) through the Financial Literacy Committee. Over \$17,000 has been collected from different funding sources to create this program, which will be developed and coordinated alongside the CLS Literacy Tutor Program. The program will see trained tutors available for one-on-one mentoring and group facilitation for all community members to address financial literacy and management. At the December 11 CHC Partners meeting, the secondary research review on Factors Contributing to Poverty in the Local Context was presented.

### **Bike Patrol Update**

The Bike Patrol unit, which was re-introduced in May 2018, continued to be active during the fourth quarter. Since joining the Bylaw team, the Bike Patrol Officers have proactively patrolled City of Chilliwack neighbourhoods, parks and trails on foot and bicycle to address and prevent bylaw infractions. The main goal of the Bike Patrol unit is to educate the public and gain voluntary compliance with municipal bylaws relating to parking and the use of parks and trails. The Officers address issues such as illegal parking activities, camping in prohibited areas or during prohibited times, smoking in parks, consuming alcohol and illicit substances in prohibited areas, and other nuisance issues. In the fourth quarter, the Officers addressed over 1,000 bylaw infractions.
