

Hack-Brown + Annis Road Realignment

HWY 1 to Ledgestone Place

PROJECT PURPOSE

To realign the Hack Brown Road (major collector) and Annis Road (minor arterial) to improve operational capacity and safety.

WHAT IS THE ISSUE?

With an increase in traffic volumes and development in the Eastern Hillside communities, a re-designed intersection with future enhancement capabilities is required.

WORK DETAILS

TIMELINE

July 5 - October 30, 2021 (Phase 2)

- Phase 2
 - Annis Road widening work
 - Completion of Hack Brown Road & final paving
 - New intersection
 - Box culvert installation
 - Paving
 - Ducting for future signal

CHANGES

What?

- The intersection of Hack Brown Road is being realigned. It will no longer intersect with the Highway 1 on-ramp and a new intersection at Hack Brown Road and Annis Road will be constructed.
 - 270m road construction (Hack-Brown Road)
 - 240m road widening (Annis Road)
 - Ford Creek culvert crossing
 - Relining of existing culvert and construction of two larger box culverts across Annis Road
 - New intersection at Annis Road and Hack Brown Road

Why?

- Intersection safety
- Traffic capacity improvements
- Drainage improvements
