Seconded (Use within the Agricultural Land Reserve for property located at 10650 Bustin Road and
recommends Council forward the application to the Agricultural Land Commission “with
support”

Carried Unanimously

As part of the Committee’s rationale, it was noted that, as the secondary dwelling has been on the property since the 1970s and the addition is minor in nature, the proposal is considered to have no impact on the agricultural production on site and will assist in succession planning for the property owners.

Tony Neels left the meeting at 3:50 pm

Councillor Harv Westeringh, Vice-Chair, returned to the meeting at 3:51 pm

Vanessa Oddy, withdrew from the meeting at 3:52 pm declaring a potential conflict of interest with respect to the following application ALR00404 as the owner is a friend and neighbour to a family member.

Seconded (Use within the Agricultural Land Reserve for property located at 42990 Keith Wilson Road
and recommends Council forward the application to the Agricultural Land Commission
“without comment”.

Carried Unanimously

5. NEW BUSINESS (continued)

As part of the Committee’s rationale, it was noted that while the retention of the existing house on the property will provide potential quality farm worker housing and/or affordable housing within the City, the Committee has no guideline to determine whether these benefits constitute an overall benefit to agriculture. As such, the Committee resolved to forward the application “without comment” with a request for the Agricultural Land Commission to provide guidance to the City in regards to the decision making criteria for the retention and/or expansion of existing secondary dwellings.

Daniel Both left the meeting at 4:11 pm. Vanessa Oddy returned to the meeting at 4:12 pm.

Moved /) That the Agricultural and Rural Advisory Committee supports the proposed variance to
Seconded (to increase the maximum farm home plate setback from 50m to 100m for construction of a new dwelling for property located at 3410 Boundary Road and recommends Council approve the application, subject to public input.

Carried Unanimously

As part of the Committee’s rationale, it was noted the variance to position the farm home plate at a setback of 100m was appropriate given the irregular lot shape and the restrictions for use associated with the 30m riparian setback for Sumas Ditch. In addition, as it will be challenging for farm equipment to access the triangular portion at the rear of the property, the Committee supports the location of the proposed farm home plate as it retains the accessible areas of the lot for active agricultural production.

Nathan Timmermans left the meeting at 4:32 pm.
