

Prest Road Widening and Roundabout Construction Project

PROJECT PURPOSE

Prest Road is a key route in the city's transportation system. As the city continues to grow and transportation needs change, this project is designed to improve traffic flow now and in the years to come.

TIMELINE

Summer/Fall 2025

- Pre-construction work and relocation of Hydro/Telus utility poles

Late Spring/Summer 2026

- Prest Road reconstruction and widening
- Roundabout construction at Prest and McGuire

Fall 2026

- Estimated Completion

TRAFFIC MANAGEMENT

- To minimize road congestion and disruptions during construction, traffic management plans will be put in place, and work hours limited as necessary.
- Alternative routes, such as Promontory Road and Chilliwack River Road, will be available.

PROJECT INFORMATION

The Prest Road widening and roundabout project aims to improve traffic flow, safety and overall travel in the city, making it easier and safer for everyone to get around.

These changes will help manage the growing traffic demands and improve the experience for drivers, pedestrians and cyclists.

Key Upgrades

- Road reconstruction and widening:
 - wider travel lanes
 - dedicated bike lanes
 - road shoulders
- Construction of a roundabout at Prest and McGuire, including street lighting
- Drainage improvements
- Line marking and signage updates
- Riparian habitat restoration and tree planting
