CITY OF CHILLIWACK

Curbside Collection Guide

SCHEDULE IN EFFECT MAY 1 - DECEMBER 31, 2026

This guide can also be viewed online

Engineering Department
chilliwack.com/curbside

curbside@chilliwack.com
604.793.2787

Wait until your first collection day on or after May 1, 2026 to use the new curbside carts and bins. If the new containers are placed at the curb prior to May 2026, the materials will not be collected.

DOWNLOAD THE CHILLIWACK CURBSIDE COLLECTION APP

- Look up your collection schedule
- Set collection reminders
- Receive important program information and service alerts
- Search for recycling and disposal options

Available on the Curbside Collection App and at chilliwack.com/wastewizard

Did you know? In 2025, Chilliwack had a 66% diversion rate. That means 66% of waste collected stayed out of the landfill and was processed by recycling or composting.

In this guide **"Carts"** refers to containers for Compostable Waste, Garbage and Recycling and **"Bins"** refers to containers for Flexible Plastics and Glass.

WHAT'S NEW

Environmental 360 Solutions (E360S) is the City of Chilliwack's new curbside collection contractor.

Compostable waste will be collected weekly. Residents will use their existing green cart, unless a size exchange is requested or a cart replacement is required. Residents may place up to 10 paper yard waste bags out for collection with their green cart.

Garbage will be collected biweekly (once every two weeks), alternating with recycling. Residents will be provided with a black garbage cart.

Recycling will be collected biweekly (once every two weeks), alternating with garbage. Residents will be provided with a blue recycling cart.

Glass will be collected manually once per month, at the same time as flexible plastics. Residents will continue to use their 27L grey bin.

New! Flexible Plastics will be collected manually once per month, at the same time as glass. Residents will be provided with a 57L pink bin and fitted lid.

Old Collection Containers:

Residents may choose to keep their old garbage and recycling bins for personal use. Residents who no longer need their old garbage and recycling bins will be able to place them at the curb for pickup and recycling by the contractor after May 1, 2026. Container collection dates will be advertised on the Curbside Collection App, social media, chilliwack.com and in The Chilliwack Progress newspaper.

Old Green Carts:

Residents who have additional green carts will place their old green carts at the curb for pickup by the contractor after May 1, 2026. Green cart collection dates will be advertised on the Curbside Collection App, social media, chilliwack.com, and in The Chilliwack Progress newspaper.

Automated waste collection is where the trucks have a hydraulic system to pick up the cart, tip it and empty the contents into the truck. Standardized carts for garbage and recycling, similar to the green cart, will be provided. Glass and flexible plastics bins will be collected manually by waste crews.

E360S ENVIRONMENTAL 360 SOLUTIONS

chilliwack@e360s.ca

CART & BIN INFORMATION

Size & Weight Limits

Carts are available in three different sizes for recycling, garbage and compostable waste.

Residents are also supplied with two standard bins:

57L pink flexible plastics bin with lid
Pink bins and lids will be delivered in June

27L grey glass bin
****Residences were provided with a grey bin for glass packaging in 2019***

Only carts and bins provided by the City will be accepted in the new curbside collection program.

Cart Size Exchanges

Each residence will be entitled to a one-time free size exchange per cart (garbage, recycling, and compostable waste carts). Any additional cart exchanges will be $50.00/cart, charged to the property owner. Please note that the cart size may affect your monthly curbside fee. For information on fees, visit chilliwack.com/curbside.

Missing or Damaged Carts

Residents are responsible for keeping their carts safe and in good condition. Carts should be stored securely within the property boundary, not on the road or sidewalk.

To exchange existing carts, request a replacement, or report a lost or stolen cart, contact the curbside collection contractor, E360S, at 778.860.3864 or chilliwack@e360s.ca.

Replacement Glass or Flexible Plastics Bins

Replacement grey bins, pink bins and pink lids will be available for purchase. For information on purchase locations and fees, visit chilliwack.com/curbside.

Moving to a New Residence

Curbside carts and bins are City property that remain at the residence they are assigned to. If you move away from your home, please leave your curbside carts and bins behind. If you move into a new home and there are no carts or bins, or you are moving into a newly constructed home, please contact the Engineering Department at 604.793.2787 or curbside@chilliwack.com.

Keep Track of Your Carts

Label your carts with your address using the provided cart decal. Use a permanent marker to write your address on the provided cart decal and affix it to the top of your cart. **Do not write your address directly on the carts.**

There is a unique serial number hot stamped on the front of each cart. Record your serial number and store it in a secure location inside your home.

Curbside Carts are City Property

Curbside carts are City property and are equipped with a Radio Frequency Identification (RFID) tag linked to the assigned residence to track collection for each household. **Visit chilliwack.com/carts for more information.**

CART TIPS

1. Sort Smart Use the Waste Wizard and this guide to help you determine which materials are accepted in each cart. Access the Waste Wizard through the Chilliwack Curbside Collection App or chilliwack.com/curbside.

2. Leave it Loose Recyclables should be placed loosely inside of the cart. Garbage can be placed loosely or bagged in the cart. If you choose to line your green cart, use a paper product such as a Kraft bag, newspaper or soiled pizza box. Plastic bags labelled compostable or biodegradable are not permitted.

3. Flatten, Crush & Cut All recyclables must fit inside of the blue cart and the lid must be able to close. Flatten boxes, milk jugs and other containers before placing them into the cart to fit more materials. Cardboard may need to be cut to size.

4. Do Not Overfill Your Carts All materials must fit inside the carts with the lid completely closed. Keep the lid closed at all times to avoid wildlife interactions. Do not pack the cart down forcefully; tightly packed materials may get stuck in the cart and will not empty properly.

5. Unlock Original Green Carts If you have an original 80L or 120L green cart with a twist lock, you will now need to unlock it at the curb when placing it out for collection. If green carts are locked at the curb, they will not be collected.

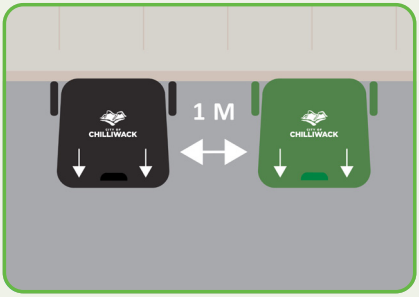

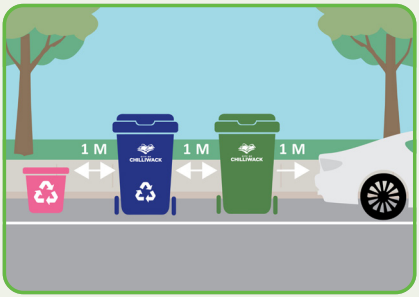

6. Reduce Your Waste Avoid single-use items, buy in bulk, and donate useable goods to decrease the amount of material you need to manage.

Place new wheeled carts out for collection by 7 am on your first collection day on or after May 1, 2026.

SETTING OUT FOR COLLECTION

Putting your carts out correctly ensures they can be collected safely and efficiently.

1. Place your cart so that the opening faces the street and the wheels face your house.
2. Ensure 1m (3ft) of space between carts, bins and other obstacles, such as parked cars, fences, trees, street lights or utility poles.
3. Ensure 1m (3ft) of space behind the cart from obstacles such as fences or retaining walls.
4. For steep driveways, place carts in a less sloped area within 3.5 metres (12ft) of the roadway.
5. Carts must not obstruct sidewalks, multi-use pathways, bike lanes or the flow of traffic.

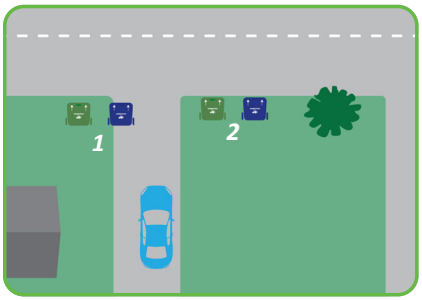

Reminder: If you have an original 80L or 120L green cart with a twist lock, unlock it at the curb.

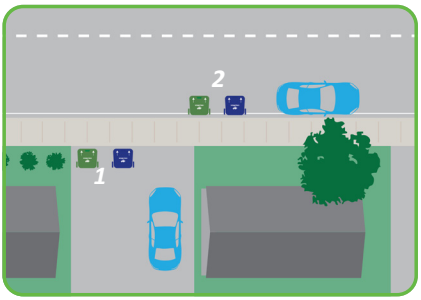

HOW TO PLACE YOUR CARTS FOR COLLECTION:

Street Collection with No Marked Bike Lanes

- Place carts on your driveway within **3.5 metres (12 ft) of the roadway**. Both carts can be placed on one side or one cart on either side of your driveway to allow access.
- On roadways with street parking, if there are no parked cars, place carts on the roadway with the wheels against the curb.
- **Do not** place carts on the sidewalk.

For roadways without street parking:
1: Place on driveway.
2: Place on edge of front yard.

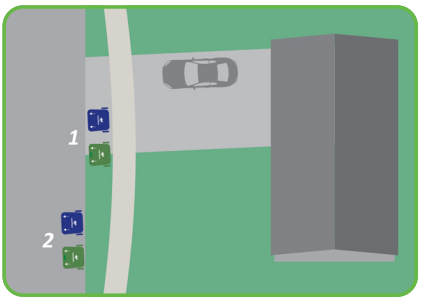

For roadways with street parking:
1: Place on driveway, behind sidewalk.
2: Place on roadway, against the curb.

Boulevards

- Place carts on your driveway **within 3.5 m (12 ft) of the roadway.** Both carts can be placed on one side or one cart on either side of your driveway to allow access.
- Carts can be placed in the boulevard strip.
- **Do not** place carts on the sidewalk.
- On roadways with street parking, if there are no parked cars, carts can be placed on the roadway with the wheels against the curb.

1: Place on the driveway so that cars can still back out.
2: Place in boulevard strip.

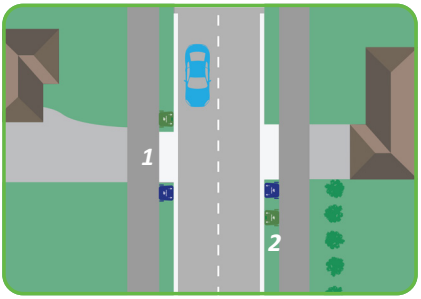

1: Place on the driveway so that cars can still back out.
2: Place on roadway, against the curb.

Multi-Use Pathway (MUP)

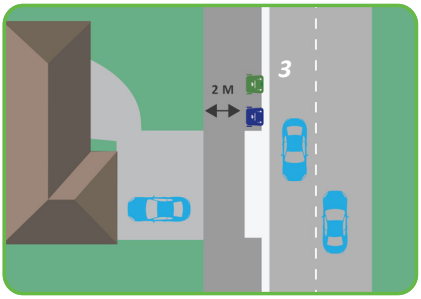

- On streets with multi-use pathways, place both carts on one side or one cart on either side of your driveway let down to allow access.

  Note: *Vehicles may not stop on the roadway unless street parking is permitted. Please place curbside carts in a manner that allows access to your driveway.*

- Alternatively, carts can be placed on the boulevard strip. If there is no boulevard strip, carts can be placed within the multi-use path, as close to the curb as possible. There must be at least 2 metres of clearance on the multi-use path behind your cart for pedestrians or cyclists.

1: Place on one or either side of the driveway.
2: Place in boulevard strip.

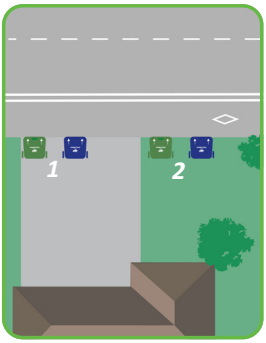

3: Place on MUP along the edge of the curb.

Streets with Marked Bike Lanes

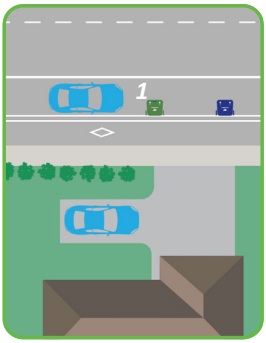

- In areas with a bike lane and a parking lane, carts can be placed across from your driveway for collection. Both carts can be placed on one side or one cart on either side of your driveway to allow access.

- Alternatively, if there are no parked cars, carts can be placed in the parking lane.

  Note: *On streets with bike lanes and/or sidewalks, carts cannot block passage of pedestrians or cyclists.*

1. Place on driveway.
2. Place on edge of front yard.

1. Place across from driveway.

1: Place in front of driveway.
2: Place in parking lane.

HOW TO PLACE YOUR CARTS FOR COLLECTION:

Laneways

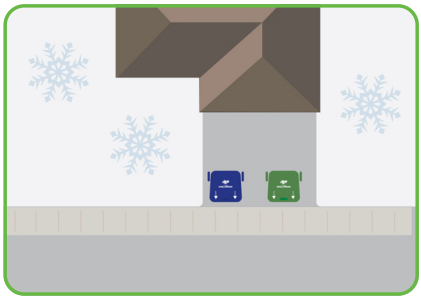

- In narrow laneways where space is limited, ensure your cart is as close to the lane as possible.
- Parking is not permitted in laneways that are less than 6 metres wide. A minimum of 3.5 metres of clearance must be maintained for vehicle access.

Severe Weather Conditions

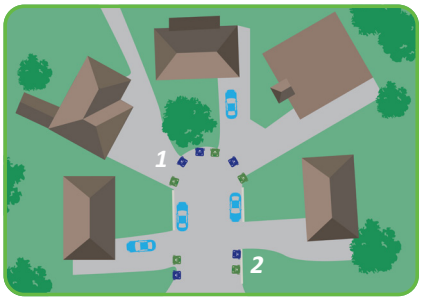

- During a snow event, clear a flat spot for your carts. **Do not** place carts behind or on top of snowbanks.
- Carts can be placed on a cleared driveway, behind the sidewalk or at the curb.
- Inclement weather or poor road conditions may result in the cancellation of collection services. Download the Chilliwack Curbside Collection App to receive notifications of collection changes.

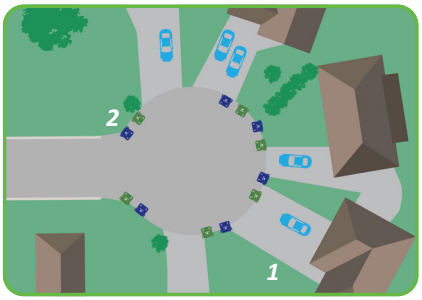

Cul-de-sacs

- Cul-de-sacs can be challenging for collection due to limited space.
- In areas where there is limited curb space, carts can be placed on your driveway for collection. Both carts can be placed on one side or one cart on either side of your driveway to allow access.
- **Street parking is not permitted in cul-de-sac bulbs.** Street parking is permitted along the straight edge of the roadway, unless no-parking signage is posted. If a car is parked on the straight edge of a cul-de-sac, place carts on your driveway.

1: Place on driveway.
2. Place on roadway, against the curb.

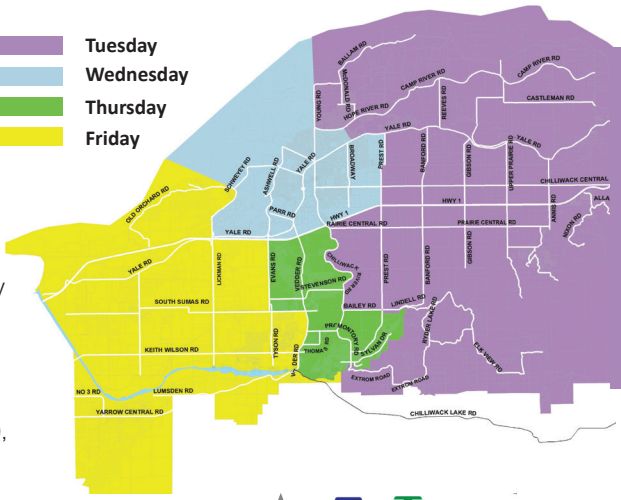

1: Place on driveway.
2. Place on roadway, against the curb.

If you are unsure where to place your cart for collection, contact E360S at **778.860.3864** or **chilliwack@e360s.ca.**

COLLECTION SCHEDULE

- Tuesday
- Wednesday
- Thursday
- Friday

Compostable waste is collected weekly.

Garbage is collected biweekly (every second week), alternating with recycling.

Recycling is collected biweekly (every second week), alternating with garbage.

Flexible Plastics are collected monthly (once a month), at the same time as glass.

Glass is collected monthly (once a month), at the same time as flexible plastics.

MISSED COLLECTION & SERVICE DISRUPTION

Collections begin at 7 am, and the crew has until 5 pm to complete the route, unless severe weather or other unforeseen events cause delays.

To help ensure your materials are not missed, please make sure:

- Your carts are set out by 7 am.
- Carts are not overfilled, and lids can close completely.
- Green carts with twist locks on the top are unlocked at the curb.
- Materials are properly sorted.
- Carts are not blocked by parked vehicles or other obstructions.
- Carts are properly spaced apart and not placed too close to one another.

If your materials were missed and none of the issues listed apply, please contact E360S at 778.860.3864 or email chilliwack@e360s.ca to request collection.

During severe weather conditions such as snow or ice:

Please ensure there is a clear and safe path to your carts. The contractor will make every effort to collect, however, if certain areas cannot be accessed safely, residents will be notified through the Curbside Collection App and chilliwack.com/curbside.

Questions? Contact E360S at 778.860.3864 or chilliwack@e360s.ca

Never forget your collection day. Sign up for push notifications on the Chilliwack Curbside Collection App. Calendars and collection zones can be viewed online at **chilliwack.com/collection.**

To receive a personalized collection calendar for your address, contact the Engineering Department at 604.793.2787 or curbside@chilliwack.com.

RECYCLING

ACCEPTED MATERIALS IN THE RECYCLING CART

Aerosol Cans
(Empty, Beauty & Non-Flammable Food & Cleaning Products)

Beverage Bottles/Cans
(Best if taken to the Depot)

Lids & Tops

Cardboard & Aluminum Foil Trays

Plastic Containers, Bottles & Plant Pots

Dairy/Soup Cartons

Paper Egg Carton, Fruit Tray & Coffee Cup Tray

Clam Shell Packaging (No foam)

Frozen Containers & Food Tubes

Food Storage & Clear Plastic Containers

Magazines, Phone Books, Newspaper & Flyers

Metal Cans/Tins

Paper & Mail Envelopes

Paper Gift Wrap/Bags

Plastic Cutlery/ Utensils & Straws

Plastic & Paper Drink Cups

MATERIALS NOT ACCEPTED IN THE RECYCLING CART

ITEMS ACCEPTED AT THE LOCAL DEPOTS

Flexible Plastics
(Place in Pink Bin or Take to Depot)

Glass
(Place in Grey Bin or Take to Depot)

Foam Cups, Trays & Packaging

Paint & Oil Containers

Hazardous Materials

Light Fixtures, Bulbs & Lamps

Soft/Hard Cover Books
(Donate or Take to Depot)

Scrap Metal

Plastic Toys & Compostable or Biodegradable Plastics

CHECK THE WASTE WIZARD FOR DISPOSAL OPTIONS

Did you know? 98% of the plastic collected by Recycle BC stays right here in British Columbia! Merlin Plastics in Metro Vancouver processes these materials into new products.

Excess Recycling

For questions about additional recycling carts, contact the Engineering Department at **604.793.2787.**

If your cart is full, you can:

- Hold it until your next collection day.
- Drop it off at a recycling depot free of charge.

If you regularly have excess recycling:

- Upgrade to a 360L cart at no extra monthly cost.
- If you already have a 360L cart, you can get an additional cart for a monthly fee.

Contamination

Too much contamination in recycling reduces the ability to turn materials into high-quality products. Items that don't belong in your recycling cart like garbage, compost, or hazardous waste (batteries, propane canisters, medical sharps) can create unsafe conditions for workers and damage sorting equipment.

New collection trucks can detect contamination. If non-compliant items are found, an educational postcard will be sent explaining how to dispose of those items properly.

Tips for proper recycling:

- **Rinse recyclables to remove food residue before placing them in your cart.**
- **Avoid putting unaccepted items in your recycling by using the sorting guide or Waste Wizard.**

Recycling Preparation

Rinse Containers (Empty, Clean & Dry)

Flatten Materials to Save Space

Put Shredded Paper in Paper Bag or Small Box Before Placing in Cart

Place Items Loose in The Cart

Do you want to be a Recycling SUPERSTAR?

Residents who help reduce contamination in our curbside recycling program will have a chance to win a gift card! City staff will conduct random audits of recycling carts on collection days to help reduce contamination. If your cart contains only accepted materials, you'll earn a gold star sticker on your cart.

RECYCLEBC

Chilliwack participates in the Provincial Stewardship Program for packaging and paper products, run by Recycle BC. They set the rules and contamination standards that guide our City's recycling program.

FLEXIBLE PLASTIC

ACCEPTED MATERIALS IN THE PINK FLEXIBLE PLASTICS BIN

Plastic Bags

Plastic Overwrap

Woven and Net Plastic Bags

Crinkly Wrappers and Bags

Flexible Packaging with a Plastic Seal

Stand-Up and Zipper Lock Pouches

Non-food Protective Packaging

Plastic Shipping Envelopes

Single-use and Packaging-like Products

Plastic Safety Seals and Lids

Plastic Gift Wrap

MATERIALS NOT ACCEPTED IN THE PINK FLEXIBLE PLASTICS BIN

Plastic Squeeze Tubes & 6-pack Rings

Plastic Lined Paper or Shiny Paper Gift Wrap

Plastic Strapping

Cellophane

Biodegradable or Oxo Plastics

PVC/Vinyl

Polyurethane Foam

Flexible plastics are a major source of contamination in our recycling program, but now there's a simple way to recycle them without having to go to a recycling depot. Residents can place all plastic bags, overwrap, crinkly wrappers, stand-up pouches, bubble wrap, and squishy cushion packaging into the new pink bin for collection. Let's keep these materials out of the landfill and turn them into something new.

Excess Flexible Plastics

If you have extra flexible plastics that don't fit into your pink bin, you can drop them off at any recycling depot that accepts this material. Visit chilliwack.com/depots for a full list of locations.

Quick Tip: Ensure your flexible plastics are free of food residue. Bundle your flexible plastics inside a reused clear plastic bag (e.g., a bread or produce bag) before placing them in the pink bin. Also, be sure to close the pink lid to prevent materials from blowing away!

GLASS

ACCEPTED MATERIALS IN THE GREY BIN

Glass Bottles

Glass Jars

MATERIALS NOT ACCEPTED IN THE GREY BIN

Broken Glass/ Glassware

Drinking Glasses & Dinnerware

Mirrors & Windows

Lids & Tops
(Lids Go in the Blue Cart)

Recycled glass is used to create new glass bottles, sandblasting materials, and construction aggregate here in B.C.. Because glass can be recycled endlessly without any loss of purity or quality, it is an excellent circular-economy material.

Did you know? Plate glass, including glass from windows, picture frames, furniture, and glassware, is not accepted in B.C.'s curbside recycling programs because it has a different chemical composition and manufacturing process than container glass.

Excess Glass

Residents may set out more than one grey bin for glass collection. If you have additional glass, you may purchase another grey bin for a fee. Visit chilliwack.com/curbside for more information. You can also drop glass off at any recycling depot that accepts it. Visit chilliwack.com/depots for a full list of locations.

Rinse Containers
(Empty, Clean & Dry)

Remove Lids
(Place in Blue Cart)

Quick Tip: Bring refundable drink containers to your closest bottle depot!

Did you know? A circular economy is an economic model where nothing is wasted. In this model, resources are kept in use for as long as possible, reducing waste and the need for new raw materials. By recycling glass, we help keep valuable materials out of the landfill and support a more sustainable system.

COMPOSTABLE WASTE

ACCEPTED MATERIALS IN THE GREEN CART

Baked Goods

Dairy Products

Eggshells & Nutshells

Fruits & Vegetables

Meat, Fish & Bones

Pasta, Grains & Rice

Coffee Grounds, Filters & Tea Bags

Food Soiled Paper Trays/ Boxes

Leftover Oil/ Food Scraps

Paper Bags/ Liners

Paper Plates & Straws

Paper Towel, Napkins & Facial Tissue

Wooden Utensils, Stir/Chopsticks & Skewers

Wood Sawdust

Yard Waste

MATERIALS NOT ACCEPTED IN THE GREEN CART

No BPI Bags or Compostable/ Biodegradable Plastics

Pet Waste/ Litter

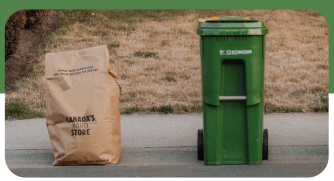

Diapers

Sanitation Wipes

Rocks, Soil or Sod

Treated & Painted Wood

Composting saves precious landfill space, creates nutrient-packed compost for farmers and landscapers, and slashes methane emissions. It is one small habit that makes a huge environmental impact!

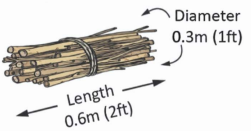

Residents can put out up to 10 extra yard waste bags (max. 15kg/33lbs each) of yard waste or bundles of branches per week, year-round and no Tag-a-bag stickers are required.

Extra materials can be placed **1 metre away** from your cart and placed together.

Parr Road Green Depot provides an alternative option for disposing of clean wood and yard waste, including stumps, logs, log cut-offs, firewood, and tree trimmings over 360 mm in diameter. The depot also offers clean soil products for purchase. Yard waste is also accepted at the Bailey Sanitary Landfill.

Branches can be tied in bundles of no more than 0.6 metres (2ft) in length with a diameter no more than 0.3 metres (1ft). The diameter of each branch can be upto 15 cm. Tie bundles with cotton, jute,sisal or hemp twine.

GARBAGE

ACCEPTED MATERIALS IN THE GARBAGE CART

Baby or Cleaning Wipes

Broken Ceramics & Glassware

Cigarette Butts/Ashes

Compostable & Biodegradable Plastics

Cotton Balls, Swabs, Dental Floss, & Sanitary Products

Diapers (Bagged)

Vacuum Cleaner Bags

Disposable Masks & Gloves

Dryer Lint/Sheets

Kitty Litter & Pet Waste
(Double Bagged)

Plastic Pipes, Garden Hoses & Broken Toys

6-Pack Plastic Rings

Textiles
(Ripped/Damaged)

Toothpaste & Brushes

MATERIALS NOT ACCEPTED IN THE GARBAGE CART

Mirrors & Windows

Scrap Metal & Car Parts

Building Materials

Hazardous Waste

Electronics/ Batteries

CHECK THE WASTE WIZARD FOR DISPOSAL OPTIONS

Make a big impact with a small change! By sorting your recyclables and compostables, you can significantly reduce what ends up in the landfill.

Quick Tip: Place all materials loose in your cart—no bags needed! Remember, carts must close fully. Overflowing carts won't be collected.

Excess Garbage

Bailey Sanitary Landfill – 5940 Matheson Road – 604.793.2907 If you don't want to use Tag-a-Bag stickers, you can take your extra garbage to the landfill for a small fee. The site accepts a wide range of materials, including garbage, compostable waste, scrap metal, and construction debris. All disposal fees are based on weight, including mattresses and box springs. For a full list of accepted materials, non-accepted items, disposal fees, and operating hours, please visit chilliwack.com/landfill.

If you have extra garbage, you can set it out for collection with a Tag-a-Bag sticker. For a full list of purchase locations and fees, please visit chilliwack.com/curbside.

The extra bags can be placed **1 metre away** from your garbage cart for collection.

DEPOT RECYCLING

A wide variety of residential items can be recycled for free at the depots. Since different depots accept different materials, please use the Waste Wizard, visit chilliwack.com/depots or contact the depot directly to confirm what items are accepted.

Chilliwack and Sardis Bottle Depots

*Only accepted at the Chilliwack Bottle Depot

Computers, TV's, Stereos, & Electronic Toys

Locations

Chilliwack Bottle Depot	45934 Trethewey Avenue	604.792.9572
Sardis Bottle Depot	Unit 305 - 7592 Vedder Road	604.858.9177
Bailey Landfill & Recycling Depot	5940 Matheson Road	604.793.2907
Emterra Recycling Depot	44255 Yale Road West	604.795.7795
London Drugs	45585 Luckakuck Way	604.858.9347

Quick Tip: Hazardous materials, such as batteries and propane tanks, can cause fires or explosions if placed in curbside recycling. Always take these items to a recycling depot for safe disposal.

WILDLIFE & WASTE

All wildlife-issue areas will receive wildlife-resistant carts for all three collection streams. These carts feature double-walled lids, durable plastic bodies, and gravity locks that are compatible with automated collection while keeping the carts secure at the curb.

For more information on how to reduce human-wildlife conflict, please visit chilliwack.com/bearaware.

- Keep garbage, recycling, and compost indoors or in a secure location. Place carts or bins out at the curb only on the morning of collection day.
- Bird feeders can attract rodents and other wildlife. Keep the area clean and remove feeders from April to November.
- Don't leave pet food outside.
- Clean your barbecue thoroughly after each use.
- Pick fruit regularly and avoid leaving ripe fruit on the ground.
- Never feed wildlife (except seasonal bird feeders).

How to Manage Attractants

If you see wildlife acting aggressively toward humans or pets, please call the BC Conservation Officer Service RAPP line at **1.877.952.7277.**

If wildlife is accessing curbside materials, please contact:

WildSafeBC	fraservalley@wildsafebc.com or	604.649.6921
City of Chilliwack	curbside@chilliwack.com or	604.793.2787

WASTE REDUCTION PROGRAMS

City-Wide Garage Sale
May & September

A unique opportunity for residents to promote reuse and sustainability. The City provides free advertising through the website, social media, and local newspapers to help you reach the community.

Free Scrap Metal Disposal
April & October

Drop off scrap metal at the Bailey Sanitary Landfill at no charge. Major appliances are accepted free of charge year-round through a provincial stewardship program.

Shred-A-Thon
June & December

Safely dispose of private documents. Residents can have papers shredded for free or by donation.

Residential Large Item Pick Up
April & October

Non-profit organizations collect bulky items directly from residents, accepting donations to support local causes.

Household Hazardous Waste Day
October

Dispose of household hazardous waste safely and free of charge. Items accepted include adhesives, fire extinguishers, gas cylinders and canisters, and household cleaners.

City-Wide Free Swap
Fall

Exchange gently used household items, reduce waste, and keep reusable goods out of the landfill in a fun, community-driven event.

Adopt-a-Program
Year-Round

Get involved in one of our four programs to help keep Chilliwack clean. Residents can pick up litter along roads, rivers, trails, and parks to make a real difference in the community.

 Information about all of these programs is available at chilliwack.com/greeninitiatives.

Resources & Contact Information

Test your knowledge on sorting your curbside materials by playing the **Chilliwack Sorts game!** Play online and see if you can sort everything correctly: **chilliwackbc.recycle.game.**

Find everything you need to know about the curbside program. Visit **chilliwack.com/curbside** for program details, FAQs, and helpful tips.

Not sure where it goes? Use the Waste Wizard to find out! Visit **chilliwack.com/wastewizard** to quickly check how to sort your items.

Stay on top of your curbside collection

Download the Chilliwack Curbside Collection App on your smartphone to:

TO HELP ENSURE YOUR MATERIALS ARE NOT MISSED, PLEASE MAKE SURE:

- Your carts are set out by 7 am.
- Carts are not overfilled, and lids can close completely.
- Materials are properly sorted.
- Green carts with twist locks on the top are unlocked at the curb.
- Carts are not blocked by parked vehicles or other obstructions.
- Carts are properly spaced apart and not placed too close to one another.
